

Topy Pallet System

Depending on customer needs, **Topy Pallet System** makes it possible to adapt different types of plastic structure in order to be able to support various types of products. An advantage that makes this product extremely competitive is the price. This combination is extremely cheap.

A key factor of this invention corresponds to the fact that it is a system that is adaptable to customer request. Depending on the mosaic of the pallet support or depending the positioning of the structure, **Topy Pallet System** can handle a wide range of products.
